Residential Water Softening System

An Employee-Owned Company

DAKOTA

Residential Water Softening System

DAKOTA water softeners are built to last by Water Control Corporation, a leader in residential and commercial water treatment technologies.

All models feature digital, programmable valves, high flow capacities, and standard 1" pipe connections (optional 3/4" available upon request).

- 3 year valve warranty*
- 5 year tank warranty*

NOTE:

- This equipment is not intended to be used for treating water that is microbiologically unsafe or of unknown quality without disinfection before or after the system.
- This system and installation must comply with local and state laws and regulations.
- This equipment conforms to NSF/ANSI 44 for specific performance claims as verified and substantiated by test data.

*See official warranty for details
